SUMMARY

Highly motivated recent graduate from edX's Front-End Development Bootcamp, with a passion for crafting user-centric front-end experiences. Eager to leverage a strong foundation in web development principles and a solid grasp of Next.js, acquired through building a modern client website. Skilled in React, JavaScript, and Node.js, with a commitment to continuous learning and a collaborative spirit. Eager to contribute to a dynamic development team and deliver exceptional results.

SKILLS

Frontend Frameworks: React, Next.js
Languages: HTML5, CSS, JavaScript(JS), jQuery
UI frameworks: Tailwind CSS, Bootstrap
CI/CD: GitHub, Gitlab, Netlify, Vercel
Testing: Jest, Selenium, BrowserStack, Cypress
Supportive Skills: Problem Solving, Team Collaboration, Scrum, Kanban, Stakeholder Communication, KPI and Metrics

EXPERIENCE

Front End Developer (Intern)

Dabuka New Horizons   **Jun 2024 – present, Remote - Egypt Tourism**

- Implemented SEO best practices and restructured legacy codebase, achieving a 33% reduction in load time and a 6% increase in organic search ranking.
- Conducted thorough cross-browser testing using BrowserStack, creating detailed test reports and solutions to enhance website functionality.
- Regularly communicated with business owners to gather requirements, ensuring alignment with business priorities and feature requirements.
- Analysed Google Analytics data to track user behaviour, informing business decisions that increased organic search traffic by 14% within one week.
- Proposed design solutions for Dabuka's future website, considering user experience and business goals.

Front End Developer (Freelance)   **Mar 2024 – present, Remote**

Onirban Ltd

- Redesigned and developed modern, user-friendly websites for startup clients using Next.js and React.
- Provided ongoing technical and strategic web development consultancy to startup ventures.
- Created interactive prototypes gathering business stakeholder feedback and launching fully functional products.

PROJECTS

Modernised Corporate Website (React & Next.js) – Freelance   **Apr 2024**

- Successfully migrated corporate website from WordPress to a modern, responsive and scalable Next.js single page application.

Technologies: Next.js, TypeScript, Tailwind, Node.js, npm
Live Url: https://onirban.co.uk

Job Search Application (React and APIs)   **Mar 2024**

- Developed a single page application job search application focused on optimizing user experience and streamlining the search process, demonstrating strong UI development skills.
- Integrated API results for a seamless user experience.

- Implemented features like load more and bookmarking functionality to enhance user experience.
- Ensured mobile responsiveness design.
- Paired with colleagues to work collaboratively on interconnected React components and solution design.
- Collaborated closely with UX and backend teams for seamless integration.

Technologies: React, Tailwind CSS, Node.js
Web APIs: Google Maps, Adzuna API, Here API
GitHub repo: https://github.com/sumzulfikar/Pathway-Application | Live Url: https://pathway-app.netlify.app/

Event Discovery Application (HTML, JavaScript, API)   Feb 2024

- Designed and implemented a dynamic platform for event discovery and ticket purchasing.
- Led JavaScript development for smooth interactions and dynamic user experiences.
- Conducted API research and integrated API endpoints for efficient search capabilities.
- Provided Team guidance on task breakdowns, ensuring project and negotiating scope with stakeholders.

Technologies: HTML, CSS, JavaScript, jQuery, Materialize CSS
Web APIs: Seat Geek API
